

To recognize and reward exceptional accomplishments in the production and performance of musical theatre in local high schools

2020 AIR PRODUCTS EDUCATION and COMMUNITY IMPACT AWARD APPLICATION

The Air Products Education and Community Impact FREDDY© Award is given to a school that creatively connects its musical production within the classroom or within the community.

Thanks to a generous donation from the Air Products Foundation, the school that is awarded the Education and Community Impact FREDDY© Award will also receive a **\$1,500 grant** to be directed to the school's musical theater program.

Integrating the theme or message of the musical production into the school, classrooms, or the community is an exciting opportunity for each school. Examples include connecting the show to history or cultural studies within a classroom... Or sharing these connections with the community or with the academic study within the classroom.

Please be specific regarding activity planned, teaching methods, strategies for involving the broader community within or outside the school, and what the anticipated outcome of your efforts will be. Also please attach any support materials, student essays, newspaper articles, or flyers.
